	Lead	Within legal EU limits
	Mercury	Within legal EU limits
Microbiology	Aflatoxin total	Within legal EU limits
Impurities	Pesticide residues	Within legal EU limits
	Dioxins	Within legal EU limits
	Sum PAH4	Within legal EU limits
	Solvent residue	Within legal EU limits
Best before	Date	April 2023

Batch code formulation: 20.300101.02

Lot code: 21.105006.002

I hereby confirm that all laboratory results have been checked and that they comply with the product specification and thus with the relevant EU regulations. The cannabinoids and contaminants analysis are performed by ISO 17025 accredited laboratories.

The validation procedure of Becanex analyses multiple (pre)formulation batches for all relevant contaminants. The entire biomass batch is released when all (pre)formulation batches pass the validation.
